mobile spaces - markus heinsdorff. Transportable, robust, quick to assemble and dismantle, easy to repair and recycle, and usable in different climatic regions—this is what was required of the pavilions that Markus Heinsdorff designed for the presentation of Germany in India 2011–2013 (steel and membrane) and the presentation of Germany in ...Markus Heinsdorff: Mobile Spaces. Published by Jovis. Text by Knut Göppert, Gottfried Knapp, Klaus-Dieter Lehmann, Christian Schittich. As part of the 2012/2013 touring exhibition Germany in India, 16 pavilion buildings were presented at five Indian megacities. Transportable, robust, quick to assemble and dismantle, easy to repair and recycle, and usable in different climatic regions—this is what was required of the pavilions that Markus Heinsdorff designed for the presentation of Germany in India 2011-13 (steel and membrane) and the presentation of Germany in China 2007-10 (bamboo and membrane). Markus Heinsdorff (born 1954) is a German installation artist working in the areas of design, architecture and photography., Markus Heinsdorff Mobile Spaces.
