

Download Methods Applying Herbicides Monograph Science

1. Introduction. Applicants wishing to register a product, vary the particulars or conditions of registration, or hold a permit to use a chemical product, need to satisfy the APVMA that the chemical product meets the statutory criteria set out in the Agvet Code for efficacy and safety. The development and use of entomopathogens as classical, conservation and augmentative biological control agents have included a number of successes and some setbacks in the past. Type or paste a DOI name into the text box. Click Go. Your browser will take you to a Web page (URL) associated with that DOI name. Send questions or comments to doi... Tolerance to broad-spectrum herbicides such as glyphosate, glufosinate or dicamba is the most widely deployed trait in GE crops (soybean, maize, cotton, canola, alfalfa and sugar beet)., Methods Applying Herbicides Monograph Science.
